

## My story about my new school building

Our new school building is nearly finished

This makes my teachers very happy

Some things are still not ready. This is OK

I will go to the new school each morning in my taxi

My teachers will take me to the old school on a bus.  
This is because everything works there. My friends  
will be with me

We will play at the old school. We will go on trips  
most days

Soon our new school will be finished. This will make everyone very very happy

We will stay at the new school

My teachers and friends will be with me at the new school

We will learn and have fun at the new school
