Total number of Service family pupils 1 x £300	£300
Total amount of funding to be received FSM Pupils	£78,115
Total amount of funding to be received Other	£23,100

Nature of support 2014 /15 – funding used to support all eligible pupils by:

Staff costs –

Increased hours for Speech and Language Therapist
Pastoral Support Co-ordinator aimed at improving outcomes of our most disadvantaged pupils.
Enterprise and Opportunities Co-ordinator facilitating employment opportunities

Additional Learning Support Assistants for children with most severe autism

Support for pupils to attend residential visits

Learning resources - ICT

Extra curricular activities enhancing social and cultural programmes

Measuring the impact of PPG spending

Speech and language

The speech and language department has grown such that an extra 20 pupils can be seen. This frees the senior therapist to focus on the pupils with more severe autism. Academic progress is measured via key skills tracker and will be evidenced more over time.

The Therapeutic Team

Our team has provided individual support to approximately 30 pupils on a regular basis and support when required to a further 30.

Nine pupils have also benefitted from Play Therapy.

Physiotherapy is also provided, five pupils on a daily basis.

Enterprise and Opportunities Co-ordinator

We have also appointed an enterprise and opportunities co-ordinator. This is giving our pupils self-esteem through a wide range of opportunities.

Residential visits

In excess of 40 of our pupils were supported on residential visits. The benefits were immense, the most significant being real life learning and challenging opportunities for our students, in many instances the first time away from home. This also provided respite for families.

Money has been spent on ICT innovation, notably the purchase of some ipads, again the impact can only be monitored over time.

In addition to the above, the school consults with staff for any innovative ideas that could be trialled.
